In the 1990s Matt opened a studio and produced records for Jebb Loy Nichols, Elio Pace, The Fellow Travelers and a wide variety of jazz artists and instrumentalists including Sarah Moule.

Matt got involved in enhanced CDs and interactive multimedia in the late 1990s, and created an interactive film "The Light In The Foyer", interactive art pieces and an enhanced music CD "Given Name".

More recently Matt has been mentoring the young musicians and digital artists he meets and admires, helping them to progress their careers.

He describes himself as "a music fan who has spent his life trying to write and record music that is as good as the stuff he loves. A tall order when your heroes are Antonio Carlos Jobim and Burt Bacharach!".
